

# Census Basics

- All households should have received at least one invitation to participate in the census at this point.
- If the census was not completed by April 5, remaining households should have received a paper form by now.
- Households will receive up to 4 reminders to participate by mail.
- The US Census Bureau will *not ever* email you.
- Questions about a completed form may trigger a call from the US Census Bureau.
- Nonresponse follow up will be in person and will take place starting in August (pending approval by congress).

# Census Funding Impact

- **The census is about money:** public housing, feeding programs like WIC, Title I schools, CDBG, and more than 150 other programs are funded based on census allocations. In FY2016, South Carolina received almost \$12.7 billion through 55 federal spending programs guided by data derived from the 2010 Census programs.
- **The census is about representation:** census data is used to draw lines for US House of Representatives, SC State House, and municipal government seats.
- **The census is about economic development:** census data is used to recruit employers to SC and determines where broadband internet is installed.
- **The census is about the power of participation:** they can't deny you exist if you are counted in the census.

# Census Funding Impact Areas

- Public Transportation
- Housing Programs
- SBA Programs & Funding
- Early Childhood Programs like Head Start and First Steps
- School Breakfast & Lunch Programs
- Emergency Services
- Disaster Relief Funds
- Tourism & State Parks
- Education Support & Pell Grants
- College Students
- Community Food Programs
- Outreach & Employment Programs
- Programming for Seniors
- Veterans Programs
- Health Care Programs
- Hospital Funding
- Community Facilities & Services
- Adoption & Foster Care
- Afterschool Programs
- Infrastructure & Ensuring Safe Roads
- Economic Development & Growth

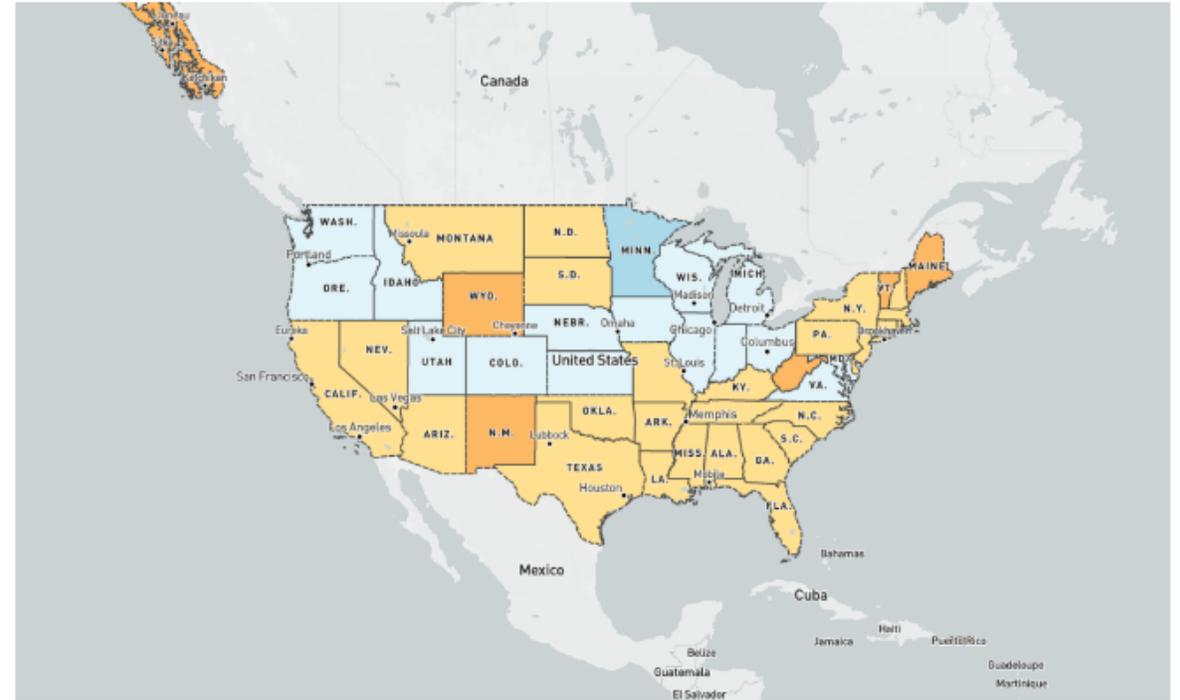

# How To Complete The Census

- Fill out the paper form using blue or black ink.
- Call 1-800-354-7271 and complete by phone.
- Go to [www.my2020census.gov](http://www.my2020census.gov).
- It takes about 10 minutes.
- You don't have to have your ID number to fill out the census.

# US Response Rates

- Self-response is the best way to participate
- In person outreach supports a complete count
- Self-response rates reflect estimated level of household participation, but not individual counts.
- Undercount is a concern across the country.

## Mapping "Self-Response" for a Fair and Accurate 2020 Census

U.S. response rate:

**48.1%**

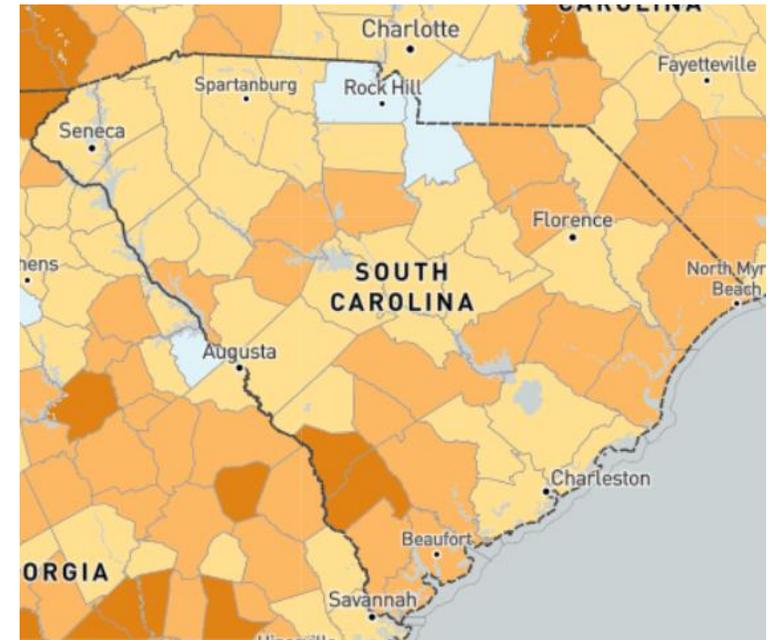

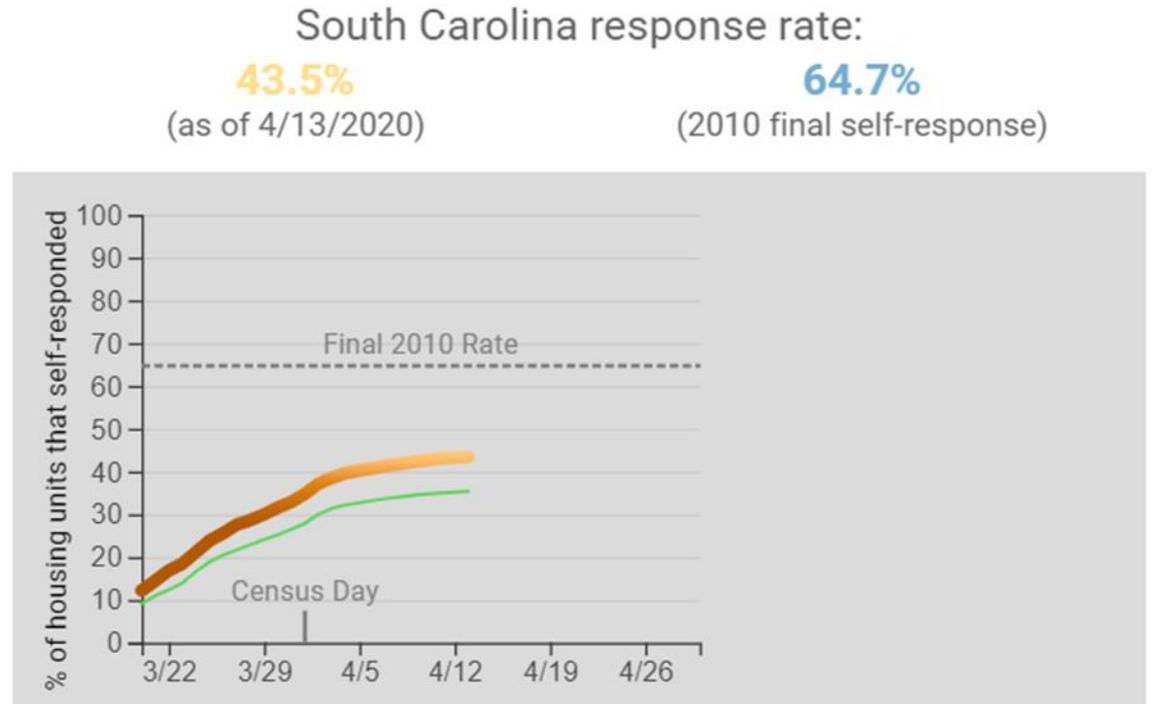

(as of 4/13/2020)

**66.5%**

(2010 final self-response rate)

# SC Response Rate

- As of 4/12/2020, SC is 41<sup>st</sup> in census self-response at 43.5%
- Concern about access for online census completion in rural areas
- Group enumeration (prisons, nursing homes, colleges, shelters) will take place between July and September

# Response Rate By County

## Highest Response Areas

- York
- Lancaster
- Dorchester
- Lexington
- Greenville
- Anderson
- Kershaw
- Berkeley
- Spartanburg
- Cherokee

## Lowest Response Areas

- Allendale
- Hampton
- Dillon
- Jasper
- Saluda
- Georgetown
- Horry
- Williamsburg
- Clarendon
- Beaufort

# Financial Impact of an Incomplete Count

- We know that in the last Census in 2010, we were significantly undercounted. While it is hard to estimate the significance of the undercount, but **it ranges from 10-20% of people.**
- Each person is estimated to bring about \$2,900 of federal resources to our state annually. **If 100 people in a community are missed, our state is missing \$3,000,000 EVERY YEAR.**
- Adding that up over a 10-year period, that's **\$300,000,000** that could be funding healthcare, housing, roads, and infrastructure.

# It's On ALL of Us To Ensure a Complete Count for South Carolina

- Check out your community on the hard to count map. What is typical participation?
- Remember, the goal is COMPLETION.
- Thinking about the people in your community...
  - Who might not participate?
  - Why would they not complete the census?
  - What activities, events, or messages would increase their odds of completion?

# To Do List

- Be certain to complete the census *yourself*.
- Ensure that each of your direct reports, co-workers, employees and contractors complete the census accurately.
- Ensure that your community is completing the census:
  - Educate the people you serve on the importance of census completion
  - Create space and incentive for completion
  - Remind them that someone will come to their residence if they don't self-respond
